26 MARCH 2026

PLAN YOUR RETURN JOURNEY TO THE KLANG VALLEY WITH MyPLUS-TTA TO AVOID PEAK-DAY CONGESTION

Petaling Jaya, 26 March 2026:- PLUS Malaysia Berhad (PLUS) anticipates a significant surge in traffic across its highway network as travellers return to the Klang Valley following the Hari Raya Aidilfitri holidays. To ensure a smoother and safer journey, PLUS encourages the public to plan their travel in advance by utilising the MyPLUS-TTA digital travel schedule.

During the peak return period, travel volume is expected to intensify from 27 March, 28 March and 29 March 2026. During this period, PLUS expects that between 2 million and 2.3 million vehicles will utilise its highway network daily. This influx encompasses both long-distance commuters and intercity travellers from major towns heading towards the Klang Valley.

Therefore, users are strongly advised to adhere to the MyPLUS-TTA digital travel schedule, available via the PLUS application. Planning return journeys according to these recommended travel times will significantly assist in alleviating traffic congestion along the highway.

In conjunction with the festive season, PLUS also activate Smart Lanes at 34 strategic locations along the highway. Additionally, PLUS Ronda teams will conduct 24-hour patrols to provide immediate assistance to users. Facilities at all Rest and Service Areas (R&R) and lay-bys have also been enhanced to accommodate the higher volume of visitors during this period.

Highway users are reminded to ensure their Touch 'n Go card and eWallet balances are sufficient prior to their journey to avoid inconvenience at toll plazas. Real-time traffic updates can be obtained via the PLUS application, Virtual Assistant PUTRI, X @plustrafik and @lpt2trafik, Variable Message Signs (VMS), and major national radio stations.

PLUS urges the public to plan their return journeys using MyPLUS-TTA and to drive responsibly to ensure the safety of all road users.
