5 MARCH 2026

TEMPORARY TRAFFIC DIVERSION & DISRUPTION FOR ROCK BLASTING WORKS FOR NORTH–SOUTH EXPRESSWAY WIDENING PROJECT IN JOHOR

Petaling Jaya, 5th March 2026:- The North–South Expressway Additional Lane Construction Project from Yong Peng Utara to Senai Utara is currently progressing to enhance highway capacity, improve traffic flow, and provide greater comfort to motorists in the long term.

As part of the widening works, several rock blasting activities will also be carried out along the affected stretch. As such, PLUS Malaysia Berhad (PLUS) would like to inform that traffic movement at the location will be temporarily disrupted in stages as follows :-

North Bound	South Bound
KM23.9 to KM26.1	KM24.7 to KM26.1

The diversion will be implemented from 10:00 pm on 10 March 2026 until 5:00 am the following day to facilitate preparatory works and post-blasting site clearing.

In addition, at approximately 1:00 am, the stretch between the Kulai and Senai Utara Interchanges will be temporarily closed for several minutes to all types of vehicles to ensure optimal safety during the blasting operation. The affected stretch will be reopened as soon as the blasting, clearing, and safety inspections have been completed.

Highway users are advised to:

- Plan their journeys in advance
- Check the latest traffic updates via the PLUS App
- Adhere to all traffic signages and instructions from PLUS personnel within the work zone

For real-time traffic updates and assistance, highway users may refer to the PUTRI Virtual Assistant, the X account @plustrafik, Variable Message Signboards (VMS) at selected locations, or contact the PLUSLine at 1-800-88-0000 in case of emergencies.

PLUS appreciates the patience and cooperation of all highway users throughout the duration of these works.

– END –
