PACKAGE 1 OF JURU-SUNGAI DUA TRAFFIC DISPERSAL PROJECT ACHIEVES 54.61% COMPLETION

Petaling Jaya, 17 November 2026:- Package 1 of the Juru-Sungai Dua Traffic Dispersal Project (PTJSD) has achieved 54.61% physical progress as at 8 November 2026, reflecting positive progress in the implementation of the strategic infrastructure project.

Package 1 comprises improvement works to the access ramps at the East-West Interchange Roundabout, as well as the construction of a new bridge along Jalan Tun Hussein Onn. These works aim to increase road capacity and improve traffic flow in the surrounding area.

Meanwhile, the implementation of the subsequent packages is also being planned in phases, with Packages 2 to 5 currently at the final tendering stage.

Packages 2 and 5 involve construction works along the sections between Juru Toll Plaza and Juru Lay-by, as well as between Samagagah Lay-by and Sungai Dua Toll Plaza. Meanwhile, Packages 3 and 4 comprise the construction of elevated sections and interchanges between Juru Lay-by and Samagagah Lay-by.

Overall, PTJSD is a RM3 billion infrastructure project spanning 17.4 kilometres, connecting Juru Toll Plaza and Sungai Dua Toll Plaza. Upon completion, the project is expected to enhance highway capacity, improve traffic flow and deliver long-term benefits to highway users and the surrounding communities.
